School Board of Jaffrey.

## REPORT OF SUPERINTENDENT OF SCHOOLS.

FOR THE YEAR ENDING MARCH 1, 1909.

To the School Board of Jaffrey :

Gentlemen—I have the honor to submit herewith my report as superintendent of schools.

In the latter part of July Jaffrey was admitted to the supervisory district, consisting of Troy, Fitzwilliam, Rindge and Jaffrey, and on the first of August I began work as the superintendent of that district. By a previous arrangement among the towns Jaffrey was to receive the services of the superintendent one-third of the time.

My first duty was to assist the board in hiring teachers. In performing this most important work both school board and superintendent used much care, not only to make wise selections, but also to secure teachers well adapted to the local conditions of the schools they were to teach.

My second duty was to examine text books and supplies, to determine what was most needed, and to order accordingly. Many of the text books on hand were in exceedingly poor condition, and I found the number of reading books, historical readers, physiologies and grammars wholly inadequate to meet the needs of the schools. Some of the text books had been unwisely chosen, and others, unfortunately, had been unnecessarily duplicated. In making purchases I sought to buy as economically as possible, and to purchase only such books as were absolutely required. I soon found, however, that I could not buy enough books to go around, and more than once this year

I have had to refuse teachers' requests for necessary books. The efficiency of the schools has suffered because of the insufficient number of text books, and I hope to see this difficulty remedied another year.

Supplies have been purchased at the lowest possible prices. By buying for four towns I have been able to secure most favorable quotations and to effect savings as high as thirty-three and one-third per cent.

At the beginning of the school year I began the work of grading the schools. The schools below the high school have been placed upon an eight grade basis instead of following a nine year schedule as heretofore. With the increase in the length of the school year, and with close supervision of the schools this saving of time can and should be effected. The teachers have been following the state program of studies. This program is excellent of itself and by establishing a uniform standard of requirements throughout the state it enables a pupil to pass from the schools of one town to another, in case the parent changes his residence, without the danger of incurring the penalty of losing a grade.

In grading the schools I have purposely made haste slowly. Assigning a child to the grade for which he is best fitted is an exceedingly important matter, and a mistake made may mean serious consequences to the child in his after life. Many of the pupils have been able to advance a grade, and in all such cases they have been given opportunity to do so. So far, I have graded the schools at Number Seven and Number Three and all the schools at East Jaffrey except the first and second grades and a part of the third grade.

I have paid much attention to the hygienic and physical welfare of the children. At the beginning of my term of service I found the janitor work in several of the schools unsatisfactory. Floors were not swept clean, chalk troughs were not cleared out, and walls and desks were not properly dusted. All this has been changed and now these schoolrooms present a neat and tidy appearance. I have had the seats moved at Number Three and Number Nine and have had larger seats and desks put in at Number Three for the older pupils, so that all the children in these two schools can sit in hygienic positions. Apparatus has been installed and tests made to determine the feasibility of supplying the schools with added means of ventilation. Some testing of sight and hearing has been done and a number of apparent cases of defective vision have been reported to parents and corrected. By the end of the school year I hope to have a record of the sight and hearing

of every scholar in town. These tests are being made partly for humanitarian reasons and partly for the purpose of aiding so-called backward pupils. Many a boy or girl who is thought of as being dull is so because of defective vision or insufficient hearing or adenoids. When the difficulty is removed such a child easily goes ahead in his studies. I wish to take this opportunity to thank the parents for their co-operation with me in this work.

I have arranged the work in the lower grades so that special and additional instruction has been given a number of children who were not making as rapid progress as their classmates. I have been able to bring about this result by utilizing some spare time of the first and second grade teachers. The plan adopted has been followed in many places and with excellent success. Its purpose is to give children who do not fit into their grades, and who do not really belong in a different grade, individual instruction and so to do away with the lock-step mechanism of a graded system.

I have rearranged the work in music so that hereafter the outlying schools will receive visits from the supervisor of music once a month during the fall and spring terms. I respectfully call attention to the report of the supervisor of music submitted herewith.

I have investigated all complaints and have sought to correct defects in discipline, management, and instruction. I have made many pedagogical suggestions to teachers and have noted considerable improvement in the teaching of such subjects as reading, arithmetic, spelling and history. I have been favorably impressed with the excellent instruction in drawing in several of the schools. I am looking forward to the time when we may have a special supervisor of drawing just as we now have a supervisor of music.

At the present time the schools are in a transitory stage. The purpose of the superintendent and a majority of the school board has been to systematize the work so that every child may have as nearly equal advantages as possible. As school officers we have taken upon ourselves the performance of a sacred trust. Our duty has been higher even than that of the trustee whose duty is to invest the money of others; our duty has been to care for and guide hundreds of human lives. We have endeavored to discharge that duty without fear or favor, with absolute impartiality, and with justice and charity to all. Our paramount consideration, first, last, and all the time, has been the welfare of the child.

Every important step taken by the superintendent has first been submitted to the school board and a vote had thereon.

Thereafter, it has been the duty of the superintendent to obey orders. The function of the school board is legislative ; that of the superintendent, executive. He has been as much bound by the instructions as any teacher and he has followed those instructions implicitly. On no matter has he found himself in disagreement with a majority of the board, and he takes this opportunity to thank the majority of the board for their cordial support and the community for the many courtesies extended to himself and family.

Respectfully submitted,

AUSTIN H. FITTZ.

East Jaffrey, N. H., February 18, 1909.

---

MR. A. H. FITTZ Superintendent of Schools.

DEAR SIR:—As my term of service has been short my report must of necessity be the same. A brief outline of grading in the system taught is as follows. In the first year tune, notation, and time are taught. Rote songs are given. In the second year the staff and all musical signs are taught by exercises and songs from chart and board and by rote. In the third year books are introduced and during that year and the succeeding years the technicalities are taught systematically until in the eighth grade the greater part of the technical side of music is completed. In all grades ear-training, tone, interval and written work are given. And with all this technical work the *chief aim* of music in the public schools is not forgotten, that is, to develop in the child a love and taste for good music and the power to interpret it rightly.

It should be the work of the High school to put into practice what they have learned in the lower grades, by singing selections without the technical work.

Individual work is done with monotones to secure their complete elimination.

Respectfully submitted,

EDITH M. GRIFFIN,

Supervisor of Music.

### Report of the Water Commissioners.

FOR THE YEAR ENDING FEBRUARY 15, 1909.

- 1—Report of Clerk and Collector.
- 2—Report of Treasurer.
- 3—Bill of E. C. Boynton, Supt., for services, etc.
- 4—Bill of E. C. Boynton, Supt., for sundries.
- 5—Analysis of water.

The six-inch main was extended on North Street 984 feet, to reach the residence of E. O. Prescott and a hydrant set north of his house. In determining to do this the favorable building lots were considered. The main consideration was the proposition of E. O. Prescott to dig and fill the ditch and pay the cost of one-inch pipe to his house, about 900 feet. The report of the Treasurer shows the net cost to be \$422.95. A contract was made with Mr. Prescott for an annual rental of \$15.00 for five years.

The Board of Commissioners was organized by choosing

C. L. Rich, President.

W. E. Webster, Treasurer.

E. C. Boynton, Superintendent.

Susan Henchman, Clerk and Collector.

In order to have proper control of the basin of Bullet Pond it is recommended that the town of Jaffrey acquire all the land in the basin.

EDWARD C. BOYNTON,  
WILBUR E. WEBSTER,  
CHARLES L. RICH,  
Commissioners.
